EXPERIENCE

CredR

1 YEAR, 2 MONTHS • JULY 2015 - SEP 2016

- Made prototypes for CEO's ideas in AngularJS, Ionic, and Firebase.
- Developed features end-to-end (UI, frontend, and backend) for the main website: credr.com as well as the company's internal dashboard.

Turtlemint

6 MONTHS • OCT 2016 - MAR 2017

- Fixed many bugs in the existing system
- Created a internal dashboard for sending notifications to the users.

Booklifter

1 YEAR • APR 2017 - APR 2018

- Tried to create this company by selling second hand books online
- Developed the frontend, backend and cloud infrastructure for the main website. Stack: React, Django, Elasticsearch, Jenkins

Vedanta Academy

3 YEARS, 10 MONTHS • JAN 2019 - NOV 2022

- Handled a project that got over a million hits in a month. Single-handedly managed ~50K users on a single day.
- Other projects: Email, SMS, Payment integration in a Wordpress plugin made from scratch; a video streaming library and forms longer than 30 fields, with complex conditions and validations. Languages used: HTML, CSS, JS, Python, PHP, Shell
